Are you driven by the ability to work and develop in a fast-paced environment, learn rapidly and master diverse web technologies? Keep on reading because we're hiring:

Full-Stack Web Developer (m/f)

Become a part of our experienced web development team that will work on challenging international projects. The position focuses on creating and maintaining web services that interact with a complex database and developing best practices in frontend applications. We're looking for a competent ambitious individual with strong agile mindset to actively participate in the full software development lifecycle.

Responsibilities:

- Developing new web applications and features and improving existing systems
- Writing well-designed, testable, efficient code and proactively suggest improvements across the whole stack
- Cooperating closely with Project/Product Managers, UX Designers etc.
- Handling multiple tasks within the constraints of timelines and budgets
- Keeping up with trends and evolving web development news and technologies

Required:

- Multiple years of experience with PHP, JS, Laravel and in-depth understanding of HTML/(S)CSS
- Knowledge of Vue.js or React frontend framework
- At least two web app under your belt
- Comprehension of Object-Oriented Programming, design patterns, web application development, web performance and SEO
- Nice-to-have:
  - Knowledge of TypeScript and Node.js
  - Experience with WordPress, Statamic or Craft CMS
  - Expertise in UX, distributed systems or cloud is an advantage
  - Degree in computer science; however, your experience and proven skills are more important
- Very good written and spoken English. Knowledge of German is an advantage

What we offer:

- Modern workstation in Zagreb, Varaždin or Osijek
- Flexibile working schedule and possibility to work from home
- Competitive salary dependent upon experience
- Continuous education and improvement by working on a variety of projects with some of the most skilled people in the industry sector
- Pleasant atmosphere, nice colleagues willing to help and an international setup
