

Are you driven by the ability to work and develop in a fast-paced environment, learn rapidly and master diverse web technologies? Keep on reading because we're hiring:

Web Frontend Developer (m/f)

The position focuses on developing best practices in frontend applications and we're looking for a competent ambitious individual to join our team and work on challenging international projects.

Responsibilities:

- Developing new user-facing solutions and features
- Ensure technical feasibility of UI/UX designs
- Writing well-designed, testable, efficient code
- Cooperating closely with UX/UI Designers, Backend Developers and Project/Product Management
- Handling multiple tasks within the constraints of timelines and budgets

Required:

- Excellent understanding of HTML/(S)CSS and PostCSS
- Minimum 2 year of experience working with JavaScript (ES6)
- Experience with React (with Next.js) and/or Vue.js frontend framework
- At least a web app or two under your belt
- Comprehension of web application development, web performance, SEO and how browsers work
- Keeping up with latest web development news and technologies

Bonus:

- Knowledge of TypeScript and Node.js (with Express)
- Experience with WordPress
- Degree in computer science; however, your experience and proven skills are more important

What we offer:

- Modern workstation in Zagreb, Varaždin or Osijek
- Flexible working schedule and possibility to work from home
- Competitive salary dependent upon experience
- Continuous education and improvement by working on a variety of projects with some of the most skilled people in the industry sector
- Pleasant atmosphere, nice colleagues willing to help and an international environment
